POLYAIR

# bubble

With its unique structure and remarkable burst strength, Durabubble provides outstanding cushioning and protection. Whether wrapping fine china or furniture, Durabubble is the ideal solution for cushioning, void-filling and surface protection. Durabubble gives you the confidence that your products will be protected regardless of the conditions.

## Durabubble

- > Durabubble: standard and anti-static rolls  $\frac{3}{16}$ ",  $\frac{5}{16}$ " and  $\frac{1}{2}$ "
- > Handi-Pak: Durabubble dispenser
- > Endurabubble: tri-web, superior strength, puncture resistance
- > Durabond: cohesive, bonds to itself, not to the product
- > Duramask: adhesive, bonds to products of any shape
- > Durakraft: moisture and cushioning protection
- > Flexfoil: insulation – construction and retail
- > Metalized: insulation – packaging
- > E-Z Seal Pouches: save on labor and material

# foam

Advanced manufacturing technology makes Starfoam highly resistant to punctures, tears and impact. Made from low-density polyethylene, Starfoam provides excellent surface protection and cushioning for everything from sporting goods to auto parts. Starfoam is environmentally friendly and made without the use of CFCs or HCFCs.

## Starfoam

- > Starfoam: standard and custom densities, including anti-static, from 1/48" to 1/2"
- > Starbond: cohesive, bonds to itself, not to the product
- > Starmask: adhesive, bonds to products of any shape
- > Lamifoam: high-performance poly-laminate – rolls and pouches
- > Starnet: fiber mesh for tear-proof performance
- > Vented: star traps allow products to breathe and vent
- > Ridged: ideal for interweaving, wrapping and cushioning
- > Tubing: wrap heavier items and avoid multiple steps

# mailers

Meeting and exceeding the needs of the growing e-business, retail and fulfillment networks, Polyair's diverse line of mailers provide easy-to-use and more cost-effective alternatives to boxes and other containers. Each mailer is durable and lightweight, can be custom printed, and is available in standard and custom sizes. Polyair mailers increase product security while decreasing shipping costs.

## Mailers

- > **Fastpak:** polyethylene courier mailer – superior performance for non-fragile items
- > **XPAK:** polyethylene bubble mailer – light, tough: the ultimate mailer
- > **Ecolite:** kraft bubble mailer – golden, white and decorative designs
- > **Metalized:** metalized bubble mailer – insulative packaging

# systems

Polyair's exclusive high-performance line of packaging machinery delivers user-friendly and cost-effective packaging material at your facility. When you work with Polyair, you are working with a team that looks at every aspect of your packaging process to design a fully customized system that integrates with your facility, saving you real dollars at every step of the process.

## Systems

- > AirSpace: on-demand customizable air pillows
- > TotalFoam: foam-in-place packaging systems
- > Sheeter: on-demand foam or bubble sheets
- > Sealer: creates on-demand pouches for furniture/large products
